

GENERAL CONTRACTOR
808 S. BOARDMAN DRIVE, GALLUP, NM 87301

COMPANY HISTORY

BUILDING OUR COMMUNITY SINCE 1987

Murphy Builders has been in Gallup for over 27 years and we continue to expand our technical resources, equipment, and certification and training programs. Our construction company has an extensive portfolio that includes many private and public sector projects that include educational, bank, medical, recreational, retail, restaurant, and industrial facilities. We are committed to contributing to the Gallup Community through donations, volunteer services, educating and training the local workforce, and building exceptional projects.

Murphy Builders attributes its success to dedicated management, a skilled construction team focused on quality workmanship, safety measures, and support from the community. We strive to continue this success by using state of the art technology available for planning, designing, and scheduling projects. Our management team utilizes their talents and experience to implement ideas and solutions that assure each project reaches its fullest potential.

Rick Murphy is President of Murphy Builders Inc. Rick was born and raised in Gallup, NM. He

started the construction company in 1987 after obtaining a Bachelor of Science in Civil Engineering Technology, with Minors in Economics and Business Administration, from New Mexico State University. Rick directs all operations of the corporation and has 27 years of experience in commercial construction management and real estate development. Rick has excellent management skills, is able to develop a successful project from the planning stages to the development, and has extensive knowledge of real estate and business financial operations.

OUR PHILOSOPHY

We are committed to providing quality work that is on schedule and within budget. It is important to us that we remain flexible and open to change throughout the job for improved project results. Teamwork is important as we work with design architects and engineers to achieve the best value for the client. Murphy Builders utilizes modern technology to maximize cost and labor and improve project efficiency. Safety is always at the top of our priorities and we maintain a clean and safe work environment at all times.
